Ethical Hacking Fundamentals | Pluralsight

mon site qui parle de langage C

BELLI BILAL | Student in hight school of Computer science

C   menu programme graphique

Dans les captures ci dessus j'ai montrer quelques astuces utiles pour bien présenter votre menu en langage de programmation C .

Tout d'abord j'attire votre tension que vous avez le choix de utiliser la bibliothèque **conio.h** ou dans le cas ou la bibliothèque ne marche plus vous pouvez copie les fonctions et les procédures que vous voulez utiliser et le mettre dans un bibliothèque que doit le faire .

Best regards

[Shellmates Club] Network Attacks Workshop

Requirements:
- **OS**: Preferably a Linux distribution (it's fine to have a Virtual Machine and set it to bridged networking), although any distribution can be used, Kali Linux or Parrot Security OS are more suited for this task as they come with a lot of pre-installed tools. macOS is also welcome.
- The most important thing is to understand how the attacks we're going to demonstrate work. There are different ways to execute these attacks and each one of them has its pros and cons.
Consider downloading these tools if you don't have them already:

- Wireshark: https://www.wireshark.org/
- bettercap v1.6.2 (the old ruby version): https://rubygems.org/gems/bettercap/versions/1.6.2
- bettercap latest (after they migrated to Golang): https://github.com/bettercap/bettercap/releases
- **[optional]** arpspoof: https://github.com/smikims/arpspoof
- **[optional]** scapy: https://scapy.net/download/

[Shellmates] Reverse Engineering Workshop

We are happy to announce our newly planned **workshop** about **reverse engineering**. The instructor: **Redouane Niboucha** will explain **the fundamentals of reversing engineering** (RE) Windows. You will be introduced to new terms, processes, tools, and techniques that will help you enlarge your knowledge about RE.

The online workshop will take place **tomorrow, at 9pm,** using **Google Meet**. Here is the meeting's **link**: **https://meet.google.com/voo-kegg-rtd**
Everybody interested is welcome to attend.

At last, the main goal of the event is to have fun and learn new stuff, no skills are required, simply try to get these tools that you will need to follow well with the workshop:

- x64dbg: https://x64dbg.com/
- Ghidra (or IDA): https://ghidra-sre.org/
- dnspy: https://github.com/0xd4d/dnSpy/releases
- Process dump: http://split-code.com/processdump.html

Make sure to join us. See you tomorrow!

/*Where there is a shell, there is a way*/

Upcoming Digital Hackathons

Stay up to date with all of our MLH Member Events:

- [To the Moon and Hack](#) - July 31st - August 2nd
- [Roll for Hacking](#) - August 8th - 9th
- [YeeHaw Hacks](#) - August 14th - 16th
- [Garuda Hacks](#) - August 14th - 16th
- [Suns Out Hacks Out](#) - August 29th - 30th
- [MedHacks](#) - September 4th - 6th
- [sunhacks](#) - October 9th - 11th
- And many more! Check out our [upcoming events](#)!

Localhost Technical Workshops

- [Build and Deploy a Full Stack Web App with AWS](#) - July 28th at 6 PM ET
- [Capital One Intro to Python Pt 2](#) - July 29th at 10 AM ET
- [Intro to Blockchain - Learning how to SCORE on ICON](#) - July 30th at 4 PM ET
- [Hack the Technical Interview: Algorithms Practice](#) - July 31st at 7 AM ET
- [Capital One Intro to Python Pt 3](#) - July 31st at 11 AM ET
- [Intro to the MEAN Stack](#) - August 1st at 11 AM ET
- [What the Hack is the Mainframe?](#) - August 3rd at 9:30 AM ET
- [Intro to Blockchain - Learning how to SCORE on ICON](#) - August 4th at 12 PM ET
- [Build a Blockchain Taco Shop with Ark.io](#) - August 5th at 10 AM ET
- [Hack the Technical Interview: Algorithms Practice](#) - August 6th at 5 PM ET
- More workshops added [here](#) each week!

Cordialement

بغيت نسقسيكم اهل الاختصاص

راني نتعلم حاليا في تطوير تطبيقات الهاتف

ثبتت Android studio 2020

كي قعدت ندخل فيه يقولي SDK File location missing

قمت بتثبيت SDk و حليت المشكل و لكن كل مرة نفتح البرنامج يطلعلي نفس المشكل لازم كل مرة نخير directory باش يتعرف عليه

و مشكل آخر هو في Android Platforms حملت و انصطاليت 3 و لكن ما يطلعوش في البرنامج كأنني مادرت والو

نفس الشئ مع برنامج intellij Idea

ممكن مساعدة
